

CAMPING and GEAR QUARANTINE RESTRICTIONS

Each Australian State and Territory has strict quarantine laws to protect our agricultural industries from pests and diseases that can sometimes be found in fruit and vegetables, honey and plant material.

If your trip plans involve travelling interstate, into or through exclusion zones, visit the Quarantine Domestic website before stocking up on fruit and vegetables.

www.quarantinedomestic.gov.au/index.php

Lists available on this site spell out what you can and can't take into each State, Territory and Exclusion Zone. Print off the lists that apply to your travel route and stow them in a handy location to refer to when you need to re-stock your food supplies.
